

## **Nextrials Receives Network Products Guide 2008 Product Innovation Award**

*Nextrials Clinical Trial Management Platform Selected A Winner In Software-as-a-Service Category*

**San Ramon, CA – May 19, 2008** – Nextrials, Inc., a leader in clinical research software and services, announced today that Silicon Valley Communications' Network Products Guide has selected its Prism® clinical trial management platform for a 2008 Product Innovation Award in the Software-as-a-Service category. This annual competition recognizes vendors with groundbreaking products that set the bar higher for others in all areas of information technology.

Nextrials' Prism is the only purpose-built solution for the pharmaceutical, medical device and biotechnology industries and melds sophisticated clinical trial management functionality with Electronic Data Capture (EDC) in a single, integrated package. It is currently used worldwide by pharmaceutical and biotechnology R&D teams developing novel treatments and therapeutics.

"The goal of any product innovation must be to effect a positive change," said Rake Narang, editor-in-chief, Network Products Guide. "Innovative products such as Prism are delivering patient data to researchers within the clinical trials setting in real time, boosting patient safety and shortening time-to-market."
