

## **Nextrials Named to the Lead411 Technology 500 List**

**San Ramon, CA – December 8, 2010** – Nextrials, Inc. ([www.nextrials.com](http://www.nextrials.com)), a leader in clinical research software and services, today announced that the company has been selected as one of the top 500 technology companies in the U.S. by Lead411. This is the first time Nextrials has appeared on the annual list of privately held technology companies with over \$1M in revenue. Based on its percentage of revenue growth from 2007-2009, Nextrials achieved the ranking of No. 491.

“Despite the national economic slowdown, Nextrials continues to be at the forefront of the clinical research industry, and this leadership is reflected in our revenue growth,” noted James Rogers, co-founder and CEO of Nextrials. “Recent milestones include our groundbreaking efforts to integrate electronic data capture (EDC) and electronic health records (EHR) platforms, the significant upgrade of our flagship clinical trial management platform, Prism™ and our certification for compliance with the federally recognized Healthcare Information Technology Standards Panel’s (HITSP) interoperability specifications.”

California-based Lead411 was founded in 2001 to provide sales leads and intelligence, business email lists, company and people data. Since its inception, it has grown 40 percent without venture capital financing. The Technology 500 list identifies the fastest growing tech companies in the U.S., and was created to help the company stay on top of trends within the industry.

### **About Nextrials**
