

Nextrials Showcases its EHR Integration Platform for the Sixth Consecutive Year at Connectathon 2014

Nextrials is the only eClinical vendor to support Connectathon 2014 validation of EHR integration standards for clinical research.

San Ramon, CA and Chicago (IHE North America Connectathon) – January 27, 2014 – [Nextrials, Inc.](http://www.nextrials.com) (www.nextrials.com), a leader in clinical research software and services, will participate for the sixth consecutive time in the annual IHE North America [Connectathon](#) sponsored by [IHE](#) (Integrating the Healthcare Enterprise), to be held January 27th – 30th at the Hyatt Regency Chicago. This year, the company is the only electronic data capture (EDC) vendor to support live data streaming between electronic health records (EHR) and clinical research systems.

Nextrials plans to showcase the power of [E2E™](#) its integration tool coupled with [Prism®](#) its award-winning EDC platform. During the Connectathon demonstration, E2E will facilitate live data streaming between multiple EHR vendors and data recipients and will be testing the following profiles and/or standards:

- - Clinical Research Document (CRD)
- - Drug Safety Content (DSC)
- - Audit Trail and Node Authentication (ATNA)
- - Cross Enterprise User Assertion (XUA)
- - Consistent Time (CT)

Connectathon is the healthcare IT industry's only large-scale interoperability testing event dedicated to establishing standards that address specific clinical needs in support of optimal patient care. The event is an important qualifier for the HIMSS14 Interoperability Showcase™ being held in Orlando, February 23-27, 2014.

“Once again, Nextrials is the only EDC vendor to participate in Connectathon. This shows our forward-looking vision and commitment to develop and promote new modalities for clinical research,” said James Rogers, CEO and co-founder of Nextrials. “Connectathon provides live demonstrations of how healthcare data can be used to improve clinical trial design and execution. It’s a great opportunity to show that these tools really work.”

About Nextrials

Founded by pharmaceutical researchers in 1999, Nextrials offers today's most novel products and services for speeding the delivery of life-saving drugs and medical devices to market. Prism®, its award-winning Electronic Data Capture (EDC) solution, has been used at over 1,500 research sites to streamline the initiation and management of clinical

trials. With its E2E integration tool, Nextrials has achieved the status of Registered Solutions Provider with the Clinical Data Interchange Standards Consortium (CDISC) for EHR integration. The company is headquartered in the San Francisco Bay area. For more information, visit www.nextrials.com or call 925-355-3000.
